PROJECTS

CompaniON: Web Application for Companion Rentals

September 2024 - December 2024

- A web-based platform connecting individuals with companions to alleviate social anxiety and loneliness, using HTML, CSS, and PHP for frontend and backend. Integrated SMS API for notifications, CAPTCHA for security, and an Analytics Dashboard for admins to track metrics and manage bookings.
- Role:
 - Oversee overall project development, ensuring the timely progress of all phases.
 - Coordinate and manage documentation tasks, ensuring all required documentation is completed accurately and on time.
 - Collaborate with team members to troubleshoot issues and implement solutions.
 - Ensure alignment of project goals with the organization's vision and objectives.

Community Connect: Empowering Brgy. Maraykit, San Juan Batangas through Inquiry Management System for Enhanced Local Governance

January 2024 – March 2024

- A comprehensive solution aimed at improving transparency, accountability, and efficiency in barangay governance. It streamlines document requests, resident complaints, and public service needs, creating a more responsive and effective local governance model.
- Role:
 - Lead the documentation process, ensuring all project details, requirements, and progress are accurately recorded.
 - Oversee the overall development and implementation of the system, ensuring the system meets the needs of the local governance model.
 - Coordinate with team members to troubleshoot and improve system functionality.
 - Ensure the alignment of system features with project goals, including user accessibility and data management.
 - Monitor the progress and ensure timely delivery of each project milestone.

Schedulo: Conference Management System

September 2023 – December 2023

- A system designed to transform event coordination by automating processes, improving accessibility, and enhancing data management. It aims to create a more efficient and inclusive conference experience.
- Role:
 - Lead the documentation of the system's specifications, ensuring detailed records of each phase of development.
 - Oversee the integration of automated processes for efficient event management.
 - Ensure the accessibility and user-friendliness of the system, catering to diverse audiences.
 - Supervise the implementation of data management features for better event tracking and reporting
